**To:** The Secretary  
**Cc:** Congresswoman Shelley Berkley  
**Subject:** Yucca Mountain

**To Whom It May Concern:**

Please make this statement part of the public debate concerning Yucca Mountain on December 3, 2007 in Las Vegas. I am unable to attend that meeting.

I am a resident of Lee Canyon, Nevada and have lived in the Las Vegas area since 1974.

I am absolutely opposed to the development of Yucca Mountain as a long-term nuclear waste storage facility.

We do not want this toxic sludge stored so close to such a large urban area- it is NOT appropriate. Why this has continued for so long, in the face of science which demonstrates that this the wrong place for this facility, is

incredible. Stop wasting money on it now!

Thank you for your consideration,

Stephanie Myers
